

Prior to January 2002, the date the Indiana Telephone Privacy Law took effect, we received 2-4 unsolicited calls per evening. In the ten months since the Indiana Telephone Privacy Law took effect we receive at most 1 unsolicited call per week.

Under NO circumstances should the Indiana Telephone Privacy Law be weakened. Our quality of life has returned to the peace and quiet of three decades ago. It is a major accomplishment of the Indiana legislature, and should NOT be preempted.
